So you like renegade?

You want a professional clan with wars, trainings?

You want a clan with a gameserver, webservice, teamspeak and all the other stuff?

You are a quite good player, ready to fight strong clans in Renegade?

You talk sufficient english to communicate on the forum and on teamspeak?

You're a player who wants to effort some time for his clan?

You want to be in a nice community playing renegade and other games?

You want to have fun?

Then you're on the right place:
