I've noticed since the patch came out, when you 1st start a map...you have no C4. That's happened to me a few times, you can just change characters real quick, then change back and you'll be fine. It's something to be taken into account though.

However, it's worse on Snow. Not only do you "not have" C4's, but no pistol as well. This occurred 12-17-04. I had to end the map because everyone was complaining. I'm also removing it from the rotation. I changed to an Officer when the level started and only had my mini-gun. No C4, no pistol.

Also, I seem to get that bug alot on Snow, when your in a Tank...and drive too close to WF, your FPS drops to like 8 and your vehicle is out of the level flipping around and crap. I notice that happens on Snow more often then other maps.

The C4\Pistol thing is something server side with the server you're playing on, since the Scripts.dll file grants you those items from the server. It's probably that "SSAOW" thing causing it.

It most definitely is not Snow causing this problem.

I don't know about the vehicle problem. You're the first person who has reported it.

This is a bug when you play Snow and other maps on a server with an older SSAOW mod version.

This problem is not occuring when installing Server Side CP1 1.2 - the SSAOW version in there has bugfixes for this particular problem (no c4, pistol etc) included.

I didn't think it was Snow either. I never had problems on it before.

---

However the no Pistol and C4 thing is caused by an outdated version of SSAOW?

If so, how to I check my version and I presume I can download the newest at renguard.com?
