Is there a better solution then BrenBot?

Is there any other thing I can use other the BRenbot cause seriously I spent all day downloading FDS and IRC and trying to figure out how everything works and its getting on my nerves now.... I remember earlier there was another one is there any other programs that lets you host a server with the options that BRenBot offers?

Just One Question. got night Regulator when you click on connect to FDS how long does it take mine says,

[12:33:29 PM] Validating...
[12:33:29 PM] Validation Complete.
[12:33:29 PM] Checking For Available Updates.
[12:33:29 PM] No Updates Are Available At This Time.
[12:33:29 PM] Archiving Old Results Files...

..... am i suppose to wait for like an hour?
