There are tons of flaws in that file. If you edit the numbers on the left to correct intervals then it will all work properly.

its done , now i know 3 player with more than 1000 recs
fact is , with the old recs.txt , brenbot will be crashed
ill got support on #bhs_support
answer on this prob is simple , just edit ur recs.txt and make the rec more than 999

format old :

100;999]%nick is actual competition for the kbps laggors and bigheaders! (%rec recommendations)

format on new must end with higher than 999

like this

998;2000]%nick (your txt)

ill give no example , make your own , or on next release of brenbot there is maybe an update on this recs.txt , but in moment uve do 2 it yourself

last time ill got bad responce on simple copy and paste results from rank-bot

so , supportet channels with this rank-bot on n00bstories

#gw @#cnc-xp +#gsf-clan #baclan +#109thgw2 #k4t.live +#k4t.sniping +#stutu

simply join 1 of them and type !rankstats
