There was a new cheat discovered today on FnFall's Sniper Server. The name was ATourGame. His Cheat was some sort of Big Body Outline Bo. The bodys were normal shaped, but the outline box was 2-3 times the normal size in width.
He supplied us with pictures when we were testing him, but one of us in IRC noticed the outlines were really big.

He was banned after we saw that. He was not running RenGaurd. People who were playing in the game said he never missed any shots. He had 66 kills on Field within 30 mins on this server (there were less than 20 players, 20 is the max). Maybe if you encounter anything like this on your servers, you will have some idea of what is going on.

run renguard pure mod on sniper servers people will still cheat without pure mode.. clickbots do work very well wil coloured skins

and this cheat is nothing new

Well, about 5 of us in IRC spent over 1 hour trying to figure out what it was and if the guy really cheated. We have never seen it before. I didn't know if anyone else had seen it before, so I felt like I had to tell other people.

ever hear of big head cheat? its a w3d (3d object model). well the "new" cheat you are talking about is kind of the same thing exept bh changes the size of the head and this one just adds and

---

invisabe box around the head or body depanding on the cheat. It's not realy new. when you test ppl for bighead make them do this.

SIlpKn0tHe was not running RenGaurd.

If he was running RenGuard, it would have been blocked.

And if the server was running full RG, you wont have this problem.

I know rengaurd would of blocked it. If the server was a full RG server, wouldnt be many people playing on it.

It's similar to bighead but it applies for all characters, even stuff like black hand snipers.

You can still ask for a screenshot. If they're using it, all the GDIs will look like Havoc and all of Nod will look like Petrova the mutant scientist

SIlpKn0tI know rengaurd would of blocked it. If the server was a full RG server, wouldnt be many people playing on it.

If EVERYONE would run full renguard then people would have no choice but to play on rengaurd servers.

Did you !forcerg him? I dont get it. If I think someone is cheating I just !forcerg them and get back to the game.

This is just a variation on the big head cheat. RenGuard can block this already.

Was renguard running on the server or not?
Was the client on rengaurd?

I'm calling b.s. on this cheat unless its proven that the user was on renguard and on a renguard server...

Locking this now since there isn'tr really much else to discuss. There are many many cheats out there. RG blocks them all. Nuff said
