You tried to be nice? What are you gonna do if they won't give you access? There is absolutely nothing you can do. You are the stupidest person I have ever seen.

glyde51omfg... at the top, you see that nice little Private Message link? Well, just go spam Crimson and Blazer or whoever till they let you in.

Or instead of spamming them, he could accept that he is an idiot and that he isn't going to get access to a forum which he has no use in visiting.

SpoonyYou are the stupidest person I have ever seen.

Most stupid* hehe j/k

tasomethinggive me server owner access

Get over it, you're not getting server owner forum access.

omg. Go away. I dont beg for access there do I? and Im the leader of GDE (We have 2 servers)

Although JJKuby does have access to it. So i assume he makes good use of that section.

Oh yes, by the looks of that post, taslayer should be given complete server acces to all servers on Renegade. Lets all forward out paychecks to him and send him flowers.

Why the hell is anyone going to give you server access? You aren't going to get it!

View Forum Message <> Reply to Message

No, the World Trade Centers are not EAX. EAX, is a hacking/cheating forum community. I've been banned a few times for pissing them off. In fact, they even got on my RenForums account and made a post about my "confession" of who I really am. Like I suck at Renegade, have no life, blah blah blah. To put it this way, they're fucktards and should be taken down, but their script kiddie loyalists will attack you for it.

glyde51WTC is Eax?

A site that makes cheats for Renegade and supports the use of cheats. BAsicly the scum you wipe off of scum, a bunch of n00bs

their script kiddie loyalists will attack you for it.

Who cares...let them have their fun. If the highlight of someone's life is to piss people off over the net and cheat on video games, then I just don't care...

A lot of the download links on EAX don't work anymore.

Lurker and I saw to that

They're ruining a game for the purpose of being "uber 1337". They are pathetic, and it shouldn't be overlooked. Why else was RenGuard created?
