snickers power rangers is a Japanese originating show, by Bandai one of the major producers of anime around the world.

I love Rocco's modern life, you can watch it on the Nicktoons channel if you have dish.

The first Anime I saw was in 1996 and I think it was Kimagure Orange Road. I really wish people would stop stereo typing things, most anime has a really good story line with the exception of Inyasha(eww)

I hope you realize that Japanimation has been out since 1985 with the release of Robotech, arguably one of the best animated series ever to come into existence. Most animation Japan produces is just a clone of another idea after 1995... With the exception of a few, most notably Inuyasha and that Ghost in the Shell series.

He's right about that, i have the robo-tech series on my computer and it's pretty good. As for every other show its like they use the same script and plug in two or three things. I tend to hate anime.

But then again, nothing can compete with la-blue girl. Anime wise anyway.

You do realize that the word please has no letter z in it? And I'm still waiting for my tax dollars. By rough estimates you owe me at least \$2,000 for your lack of comprehension in the language you were taught to speak, read, and write in.

I don't understand how you being an idiot has anything to do with people calling me a homosexual, as if people saying "omfgr ur fag" was supposed to make me be one.

Why did you leave the Command and Conquer community? Are you just going to leave because Half Life 2 has a better game engine? That is a sign of taking the easy way out.

You have ALL THE TIME IN THE WORLD to type correctly on a forum. There is no excuse for typing that bad. Also, if you want any respect whatsoever on these forums, go back through your 2nd and 3rd grade English class, and use the knowledge from there to type on here correctly.

i speak normaly when at work..well when i have to

but when i get home i curse up a storm and speak slang ->outa<- this world

i type properly most of the day but when i go to a forum its what ever works cause im tired of typing long ass words!

does that lower me in YOUR opinon?

<3 Ghost in the Shell

</3 Inuyasha: no character development at all.

inuyasa is always getting stronger..
he went from just finding the sword.. to using it..
to using windscar.. to backlash wave..
to the red barrier breaking style..

he was all evil and wanting to get the jewel for himself to become a FULL demon..
now.. hes kinda not all bad..
he goes from a pure solo mentality to being able to befriend others

development?

meroku and songo are soon to be lovers.. (to lazy to spell check names)

your never sure if inuyasa will go for kagome or grr i cant think of her name.. the other gurl

i gotta say.. when Inu came out.. it was like "damn.. about time they made something like this"

i'm very picky when it comes to anime.. and inu has to be top 5..

i hear a lotta ppl say "bah no storey and bad charater w/e"
the series is over like 300 episodes prolly more for all i know

what else do u want from a series?! lol

this anime even GIRLS like..
cause its told from a girls point of veiw half the time (kagome/songo)
