HEPL

every time i play online and server keep asking me to download renguard to play. and i did it. but it won't let me get in to the game to play. so i have to delete the patch be able to play again. so any one had an ideas? I am tires of the message everytime i am on middle of the game.

...

Did you install it properly? What does it say on the RenGuard window?

I dont really under stand your problem but if its your patch thats not working...

You might have some skins or files that are either not allowed or are corrupted. . Did it say anything about repairing files or anything when the core patch got done loading? always.dat was what i had to use to fix it.

If its rg thats not working this is the wrong place

well, they just tell me that check the internet connection, but my connection it working fine. but just can't get the game online or even star. also i don't know how to fix it, because i am just not a computer person. so please guide me so i can play normal without interruption from server or adm.

many thank any help out there
