You've all seen photo's on the net of signs/places/towns with ridiculous names like "Welcome To The Town Of Fucking" or "Gayville" for example.

Well... i thought i'd post my own discovery below.

I couldn't believe it, we were driving along a local countryside road in our lunch break from work, and we stumbled upon a primary school...  
I'm 23, my co-worker is 27, and we both could not stop laughing about this for what must've been 5 minutes or so, is that good?

Definitely brightened up my day.

I got a picture of another sign which was funny. It was in a garden on a river bank outside of a nearby town. I was on a boat and had a camera so I had to get a picture of it. It makes no sense since where the hell are you going to get a stone while on a boat? It's most likely some practical joke but hey.

But what's even worse is that all they had to do is take the sign down. It serves no purpose!
