[rant]I was in a CS game last night and I played 7 rounds, had 28 kills. One of the best games I have ever played, and this guy named [t0gym]pr0n came ingame and said "I like to Crash Servers!", anyways he chooses CT (The team I was on) and flys by me going 100mph(Hack for those of you who dont know) and the admin who was ingame bans him. Then the server crashes.[/end bitchfest]

Anyone else have any experiences with these guys?

Myg0t didn't originally start as a hacking group... They started by exposing Vavles horrible glitches on server. but then valve bitched them out about posting the glitches on their website and then all hell broke loose.

Yes, I have been to their site. they're kind of a WSE group with attitude. Check their forum, they have a section where people post collage pictures of people swearing at them and getting angry because they were messing up games. it's kind of funny, but juvenile all the same.

Thats why I won't buy that game

Too much focus on it, so people want to "hack" at it more. Its all a bunch of gayness. I'd like to see their website/forum/servers get owned.

that would be funny, nothing better than hacking the hackers. Btw, while you guys are at it, watch out for these guys. They attempted to take our TS2 3 times: <http://www.g00ns.com/owned.html>

lol i just realized the g00ns got owned, I dont see their site when I click on the link lol. they are such n00bs.

Myg0t also have a listed of about 1million CS1.6/CSS keys, so the fact is we can't ban them, we have to live with them.

/me pats his auto-myg0t-ban plugin on his servers

Ahhh.. the good life

I don't know why you get irritated over myg0t. That's the only reason they cheat in games.

I have to say I find speed hackers quite comical. They fly around the map stabbing everyone on both teams. It's hilarious good time fun on the farm. A lot of times the host is even laughing too hard to kick them. If you ever see one just going about his buissness knifing everyone on both teams, you will laugh.

I actually find it quite fun to play against hackers. Speedhackers are the best...they fly around like they are invincible and I headshot them during their 1 second "cooldowns" between super speeds. Now if they have an aimbot it gets gay, but I can still sometimes kill them. My human skill > their systems attempt at skill. I love watching A CHEATER call me a hacker just becaue my right hand has such insanly fast reflexes that he stands no chance....anywho, just my \$.02

Peace out,

-Kingdud
