Hello folks! I've got a big problem. I'm updated to latestest patch and downloaded renguard. Everytime I play it'll play online for a bit and then just crash to the desktop. I did play once and it never did this but since one of Westwood's new patches it's started to do it. Please suggest on what I can do or any help you can offer. PLEASE PLEASE PLEASE!

Did you get the CP1?

And if yes, do you try to turn on extras?
