<http://www.trielite.net/world%20domination.html>

If you've ever poked around my site, you would notice the horribly useless Global Domination page, with nothing to do. Well, I need some help now. If you know any flash games that I can put on my site for it, that would be great. Or if you can find me one of those world maps that look all evil mastermind made, that would be great. Thanks!
