This is an improved version of the GDI Construction Yard with ramps to be used in maps with aircrafts. Model tested and completed by StoneRook, Bumpaneer, Aircraftkiller and me. Exterior, Interior, PCTs and MCT included, as well as blockers to avoid beacon exploits. Screenshots: Screenshot 1 Screenshot 2 Screenshot 3 Download: GDI Construction Yard - 663kb Expect improvements in future, as well as a Nod version, and even one with VIS already included. Enjoy.

to the gdi base in my map. Expect your name to be in the map/mod credits. Also.... have you started to retexture the modified nod conyard yet? just curious.... Eric. If you need it, I can work on it right away and yes, there are plans for a Nod version coming soon (Have some few priorities first). Just give me your email I might make a version under customization

I posted a picture of the nod ramps on my home page but it's not available right now. [http://www.geocities.com/sgtmay2000/ADW\\_progress.html](http://www.geocities.com/sgtmay2000/ADW_progress.html) the bottom picture is of the retextured ramps. Eric.
