ok, wtf are these guys he's shooting at:

http://www.ebgames.com/gmsplimages/18/184256/pt_2569112_screen003_ss22110.jpg

They don't look anything like Nod soldiers...

oblivion165Renegade would of been a hellova lot better with those features and models.

It looked like that at E3 2001

..... I think

BTW IGI2 blows. IGI1 was good, but no multiplayer IGI2 was a BIG disappointment. But hum... good LAN idea I guess when you are bored.

Renegade CD Keys are so easy to find on the Internet now. Google it.
It doesn't really matter, because it's a 2yr old game that nobody really buys anymore. So if you use a keygen, your not really fucking anyone over who actually buys the game, it only cots about \$4. I found on for \$.50 on amazon.

The Ebgames right by me was a little confused. It had a Renegade game with a \$15 price tag and a "New Release" sticker on it...

..... I just don't see how renegade could go down to 4 damn dollars. Its such a great game , but because of EA's shitty marketing and support of it they've brought it to this.

FUCK EA

TheGunrunHere are some CD keys i just generated use them if u want.

056750-593677-484396-5976
056125-433809-949931-5863
056171-202999-848363-2865
056593-999421-919083-2377
056984-243580-291307-8701
056906-639366-972587-4437
056921-875797-974635-4716
056593-420237-415083-2316
056937-683389-174059-3263

I could be wrong, but I don't think those keys will work online. Only LAN.

At first I could not find my old renegades key that I paid for. So I used a keygen to see if the master server was still verifying keys or not. And when I tried to play online, it was no go :/

But I found my old key, so its all good

^ CD-Keys found on the internet don't work online. They are all "in use."
