That was.. pretty bad...

BTW: Does anyone know why my blog messes up when I add link? It adds a stupid border (around the link image), any way to fix that?

http://www.trielite.net/glydeblog

Fixed the border, anyone know why it screws up in IE?

Okay, now they're both screwed...

I like your work, I think your portfolio was probably easier to make, but it still has this nice
professional finish.
