I don't he wants a cheat , He wants a Infantry mod thats says "Creatures Infantry by nopic and the people at <http://www.night-stalkersclan.tk>" At the begining of each map , Kind of like a MOTD. I think at least.

Yeah, but we also have reason to believe that nopic is truly taslayer starting anew because of his known cheating. He claims to be taslayer's brother, so that's the identity he's going with.

Okay, WHY would we edit a modification you didn't create and change the credits so it looks like you did? If you can send me a copy of the infantry only modification, I'll go ahead and add a "creatures mod" message after vloktbody's credit.

Why? The nightstalkers clan didn't help in any way in making the mod as far as I know.
