I can open renguard fine,

```
[11] Trying to connect to server #1...Connected
[11] Server is not responding. Trying next one
[11] Trying to connect to server #2...Connected
[11] Secure link established.
[11] Welcome to RenGuard , admedgar!
[11] To launch Renegade, please click 'Renegade'.
```

Then I click renegade and *poof*

'game2.exe - Entry Point Not Found'

"The procedure entry point
?Detect_Bandwidth@@YAKKKHAAKKPAUtBandtestSettingsStruct@@@Z could not be located
in the dynamic link library BandTest.dll."

then renguard says

```
[11] Unauthorized file game2.exe has been found in your renegade directory
[11] Disconnected from RenGuard network'
```

HEEELLLPPP
