I am in the process of making a Renegade Modding FAQ - and i have the website to post it.(i also would like to mirror it on all the Renegade sites)I would like to extend a request to any modders for Renegade to send me any little tidbits of knowledge you have gleaned from the tools.All authors will be credited - as per FAQ standards.It wont contain the complete tutorials that others have made - simply a link to where to get them.I am mostly concentrating on "trick/tips/simple how-to's" -I have over 10 megs of notes taken from this board - and i hope to have the FAQ up by mid-november.if you have anything - send it to stonerook1@hotmail.com subject - FAQ Thank your for your time and consideration in this project.StoneRook out...

Be sure to include exporting to .mix, setting up the RenX dazzle system, vis, putting the scripts database in to get the defenses working and all that good stuff that no one could figure out without these forums.

RenRealm can put it up when you're done. Max I can offer though is 10 megs, our server space is getting a bit tight, with all of ack's maps. =)
