I just made that email address today... same with the nicks. Can anyone else get serials or does that happen to everyone?

That sucks. I guess this will mark the demise of Renegade.

I suggest you find a friend who hosts a server and ask them if you can use their serial.

One serial is good for four nicknames. You made 3 nicknames and wanted serials for each, but somehow, I know you aren't putting up 12 servers.

I'm pretty sure you can only host one server per serial. I started out with 7 serials but I gave them all away to people except for one. I was just trying to get a few spare ones.

The demise of Renegade? Yeah right...just because someone can't put the 1000th server online?

You can host one server per serial. There are more than enough servers on WOL, so maybe this "outage" is a wake-up call.

IRON FARTDemise of Renegade IF EA doesn't do shit about it.

Last time they fixed it WOL was flooded with shitty servers, and in my opinion it did more bad than good. And you realise that flood was basicly what spawn that whole "a00000wtf" bullshit too. I'd be happier if it stayed like this...
