Andre has done it again! He has created a great new map, with the help of Bumpaneer,
StoneRook and YSLMuffins; and if you have logic skills, it is called C&C_Antarctica. With
stunning reinforcement views, and epic battles, this map gets a 10/10. Or rather a 9/10, because
he didn't give it to me early. This map is amazing, and I recieved the picture pack. I'd suggest
you wait about a week, until he releases it!

could you give me the name of both the engineer(free) repair gun and the $350 engineer repair
gun. and also the sniper rilfe ($500) w3d name. i want these names so i can find them in the XCC
mixer program. so could you give me the names of these so i can find them in XCC mixer?
