I've noticed a lot of topics about mining on here. So I thought I'd do you all a favor. You can search eBay for "BStorm's Mining Guide" or email me at cackboy26@yahoo.com with any questions or concerns. For all of you who think you know how to mine a base, think again. For 3 easy payments of \$19.99, you can learn how to defend like a pro. Take a look, and enjoy my book.

THIS IS NOT A JOKE

It really did shed some light on exactly what needs to be done on each map.

I would recommend this book to even the most hardened pros of this game.

here are some customer reviews i've found:

****busteroo****

WHAT IN THE HELL? ITS FULL OF PICTURES OF IDIOTS RUNNING INTO MINEFIELDS AND DYING. THE MINEFIELDS ARE JUST HOARDS OF MINES THROWN IN ONE PLACE IN THE CORNER OF A BASE. IF I WAS ONE OF THOSE PEOPLE I WOULD EASILY RUN BY THEM AND NOT LOOK LIKE A TOTAL TOSSER. THE ONLY THING THIS BOOK TEACHES YOU IS HOW TO LET YOUR OPPONENT INTO YOUR BASE. ALTHOUGH THE COVER ART IS NICE. CAN THE AUTHOR WRITE ABOUT THAT INSTEAD?

****renaddict_4_lyfe****

when I was informed that this book would help even the hardest pros to mine better, I laughed. Then I bought the book and my laughter turned to tears. I can't believe it....all this time, and I thought my mines placed randomly in the field were tripping everyone and saving the base from infiltration. Now every game I'll be mining all 4 corners of my base, 7 mines apiece, sitting back and letting the boinks roll in. thanks cackboy!

well they were all mixed, I think some people liked the book but they didn't seem very bright...is the book really worth it?

Since buying Bst0rm's book, I've been throwing mines in places I've never dreamed of and while on defense I've gone from giving up 4.7 buildings per game to 4.3 per game. Take your mining to a whole new level. Bst0rm's Comprehensive Guide To Successful Base Defense has ®'s seal of approval.

BlkStorm, you are my hero. This book tells you all sorts of ways to multitask while mining. For instance, one chapter tells of how to eat ice cream while applying mines to the ramp to the top of the Weps Factory. Very insightful. If ever there was a sequel, I would buy it in seconds. But a renegade will catch the bone, wallop the owner across the head, tuck tail and hotfoot it to the land of freedom!
