I havent played Renegade since January but when I reinstalled it this week, my Hunters reticule and boink replacement did'nt work. Is RG been upgraded to block ALL skins and boinks now?

No, it allows all textures and sounds.

My boink is an excerpt from MC Hammer's "You Can't Touch This"

Also use the classis UT "HEADSHOT!"

Whistles innocently...

Yas, it's loud. Unfortunately that's the only way I could get it to sound any decent while in-game. With the Sound recorder the only volume options were to increase or decrease the volume by 25%. One down was too soft for in-game playing. At least for my liking. If you need it softer, feel free to reduce the volume via the Sound Recorder. Give the volume a chance, it does wonders for the ego.

Is there a goof program that I could download to put cartoon or music wavs as the boink.
