Does anybody have any idea if that page will ever be up again? Or if they even care enough to fix it?

Is there another way to join a clan? Or was that the only way?

That thread explains how to join.

And no I don't think they care enough to fix it unfortunately.

He knows how to join it, it's just...down, as in...you can't join/leave/kick/edit.

My thread explains how to join a clan when the clan pages actually work.

My thread isn't of much use when they don't.
