WalrusWhy is the sky blue - when green is a more pleasing colour?

The sky is blue due to the Rayleigh effect - you know, the light scattering in the atmosphere. Green light isn't affected by this - it's one of the wavelengths that just passes straight through the atmosphere unaffected.

No matter how pleasing it is, it just doesn't get scattered, but blue light does

I've wanted to know:

Why people don't just say why they're pissed off at me

Why people don't just say that they like me

Why can't we sue the government for being pants

Why does madness always prevail

Have those human rights nutters (the ones who say we can't beat the crap out of a burglar) ever been a victim of such crime? And did the police turn up that day?

I want to:

Be loved by a good woman

Have a house, car and mortgage

Own my own business

Get a tattoo

Chew up and spit out 200mph :twisted:

Get banned from a country (preferably involving no jail sentence)

Why must children die because women don't know when to close their fucking legs and NOT be whores?

i had a feelin you were one of those stupid people.. i just knew it

ya sure blame the girl cause she was nice enough to let ya slide up in her..

sure blame the girl cause your lil thing got hard and you wanted to pop it in her..

I'll laugh my ass off when the first girl you have sex with gets pregnent cause you were givin it to her like an amature and rip the condom..

and your stuck with a kid you didnt want and not financely capable of rasing it.

ya! now thats the way to bring a life into the world..

and with that attitude towards females.. i doubt you ever will get laid

you must still live under your parents roof..  
cause you have yet to learn your survival and way of life  
is more important then anything else

if i had to go to war.. and you were in my squad.. i'd kill you myself..  
cause you'd get me killed for sure.. you'd be out there yellin to the enemy..  
"no no, we just wanna talk about it"  
bang your dead, bang im dead, cause of your flower power ass

j\_ball430

Why is the human race becoming more and more stupid each and every fucking day?

the question could also be

Why must children die because men don't know when to keep it in thier pants and NOT be  
whores?

but its also silly talk of a virgin

As an active sexual person my opinion is that both parties are at fault for pregnancy. Every girlfriend i had was the first to initiate the sex, and is a well known fact the female has more options to prevent pregnancy. Just play it smart people.

But overall the female is usually the one to shoulder the burden. My best friend just had a baby on Sunday and she's been married for a few years... it's hard work even with the two of them. I can't fathom why people are stupid and get pregnant when they're not ready. I have another friend who planned a pregnancy with her boyfriend. Like, if the guy isn't going to commit to marriage, don't be surprised when he wants nothing to do with his daughter.

You're a fucking dumbass.

Because she was "nice enough" to whore herself out? Sure, it is the guy's fault for "sliding up in her", but if that's what he wanted, she could tell, and she's the one who decided to let it happen. I'm not putting all the blame on the women, but THEY got themselves pregnant, so it's THEIR job to take responsibility for their actions and carry the child full term. Did I say the guy should get off free? Fuck no. He damn well better pay child support.

Also, anybody who just thinks that I'm putting all blame on the woman is a moron. A man can't carry a child, so why would I bust a guy's chops for abortion? Think people, c'mon, I know you're capable of it.

Also, Sm0ked, where do you find it in anything I've said to come to the conclusion that I'm a virgin? You just assume this because of my viewpoint? Wow, you're an ignorant fuck.

With this attitude, I already have. Oh, and not that it's any of your business, but she IS pregnant. The thing is, it's not mine. (Just in case anybody wonders, no, I'm not proud of the fact that I'm no longer a virgin. It is a regret of mine.)

The only thing you've gotten right. Yes, I still live under my parents' roof, but that's because I'm still going to school, and I need as few financial responsibilities as possible, so I can save up for when I move onto a university. See, I'm actually paying for my education, so I can't exactly afford to live out on my own.

Survival takes common sense, and guess what, I show more common sense than you ever will. I may have flawed logic on a few issues, but I'm far from making any horrible mistakes that you are on course for.

You claim to be oh so wise, but yet you've proven yourself to be a fool. I support the fucking war, you dolt. You could have easily gathered that if you had half a brain. I have extreme hatred for those who attacked my country, and I, in no way shape or form, show mercy on those fucking bastards. If anybody was to be shot in the squad, it'd be you. Probably not by friendly fire, but instead you'll be toking and walk up to an Arab saying, "Hey, man, do you have a light? You have plenty of cigars wrapped around your body. I'm sure you'd have a light somewhere, man."  
\*BOOM\*

its too bad that both political spectrums are looked upon by there more extreme followers than the average ones. Myself included mostly see liberals as tree-hugging, baby-killing, self haters even though I know it isnt true. Weird huh?
