my renegade sd broke its dead...
i downloaded a cd crack from unrules.com
at first rengaurd had no problems with it but my lil brother got on the comp and now everytime i wanna ply rengaurd (via no-cd crack)i doesnt load rengaurd   i had many problems with rengaurd and CP1 i hope you guys can help me.

uninstall renguard, install no-cd crack, install renguard again. always first install no-cd, then install renguard
