Can you re add the skin chooser

If you dont install the official patch for renegade when you go to options then multiplayer there is a skin chooser that lets you choose from the skins that are in your renegade data folder.  
(EG. if you have 3 skins for the same character you can choose which one to use)

Aircraftkiller, be the better man, help the guy out with what he was asking and then remind him what the proper terminanoly is. You would feel better knowing you helped someone rather than react negatively.

I think I remember a program that let you select skins out of game, I'll do some research into it for you pal.

Besides, I can stick it on my site too

Here it is:

Rabbit skin

Bear skin

Zebra skin

The skin of a zebra or bear would be called a hide, that goes for most large animals.

It's the same thing either way, hides are skins and skins are hides.

hide2 P Pronunciation Key (hd)

n.

The skin of an animal, especially the thick tough skin or pelt of a large animal.

Those quotes are from years ago...

plus you need to remove all that ACK stuff from your signature, it's an abuse of the forum rules and is plain stupid.
