You two are complete assholes. If you aren't going to help him, then don't say a single word to him. Crap, I've seen 5 year olds act more mature than you two.

To install SSAOW, just extract all the files into your Renegade FDS's root folder. Default is C:\Westwood\RenegadeFDS\Server\

All the extra sounds are already included in your game; SSAOW just uses them.

Only if you don't feel comfortable installing it yourself. It's really not hard, and if you make a mistake, simply delete your C:\Westwood\RenegadeFDS\Server\ folder and reinstall everything.

Be sure to back it all up if you think you're going to make a mistake.
