are you referring to the /invite command that you can't remember? I can barely understand what you are asking because your question, no your whole post, is riddled with spelling and grammar errors.

If you are referring to the clan pages. They do not work. Clans are worthless anyways, "in my opinion."

Flyingfox, I don't run a clan. I don't even care about Renegade itself. I just support the game. And like I said in another post, clans are worthless, "in my opinion." And really, my website isn't about the old clan I ran. It is about me and a friend. And my way of life.

RenGen isn't just about his clan...
...it is his way of life.

LOL

Christianity is also a way of life. So how now, does RenGen and its ways, its idols, its principles, its institutions, compare to that of Christianity, the world's most popular way of life?

Do you set aside time on Sundays to worship Havoc and celebrate holidays in honor of GDI and mammoth tanks? And crappy websites?

Haha.

Remember the masses of orca bombers you could build on TS? I once built something like 200, flew them and surrendered...it was a massive explosion, and they took up the whole screen.
