My nephew's brother's uncle's father has an ape. That ape is gay and his gay ape friend is owned by a guy that told the ape (who told mine) that he can bypass renguard. My ape drawn me a nice picture that was actually a screenshot of how that guy did it. So yeah: it is bypassed... *shivers*

Even if it was? We can still catch them with ease, finding IP's, testing, ect. It's not that hard to catch them.
