Did you get them all? 'cause I found a swat rifle and changed it (quite a bit) so now it looks like an

m16. I halved the polys to 2316, and I'm still working on lowering them... looks pretty good 2.

Hey that m16 model I sent was not the right one, if you've been looking at it you should of notice that the model had some inaccurate modelling. The good model was actually an M4, if you want it tell me.

trendt_booth_boe@hotmail.com that's my e-mail. Sorry if you thought it was two underscores..Anyhow I just made a new (and better looking) M16 and M203 still needs to be skinned, Do you know how or where to learn to skin 'cause I also made the assault rifle from HALO and I'm gettin' annoyed because it's plain colours.I'll send you the M16+M203, and I didn't get any feedback on my map...
