Hey, i was bored and needed something to go with my new Avatar, as the Raven wasnt the right theme. Ill remove the quote, but the tank stays. It took me about half an hour to figure out how to do that in Paint.
By what i mean, is putting the Clan Jade Falcon logo in the top left to replace the normal Nod logo.

Part of the 30 minutes wasnt just figuring out how to work with it, i kept screwing something up. One time i moved the Clan Jade Falcon logo to partly over the tank, and went to resize the entire picture. I had to start over again, because of that.
