After loosing this:

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=5981530013>

In a freak auction sniper accident, I'm kind of desperate to get my hands on at least one of these. If anyone has one stashed away anywhere or know some one who has one, I will buy it off you!

Please don't make a post like "Holy shittles I didn't know they made those!!" They have been out for like 3 years already so its old news.

Holy shittles, I didn't know they made those.

Just because it's old news doesn't mean everyone knew about it.

I want a damn orca.

I see these on ebay every once in a while, the only one I would really want is the mammy.

If I had some money, I'd keep an eye out for a Stealth Tank, if they made one. Or a Flame Tank. Whichever.
