RG thinks that I hacked always.dbs when all I did was export a map in .mix format into my Renegade Data folder...

Exlude always.dbs in the export list, modifying this file will cause you to get disconnected from RenGuard since this file could potentially be used to cheat.

<http://www.multiplayermaps.net/pafiledb.php?action=category&id=75>  
You can download some of the original renegade files here in case you are having problems with RenGuard.

I think you possibly need someone to upload the cp1 always.dbs for you to download and fix your 'hacked' one

would upload mine but my webspace is a bit full at the moment
