There's a link somewhere in these forums to a site which shows a what a pile of garbage the "No plane at the Pentagon" theory is.

Was trying to be careful with my words. I don't beleive this theory because the quality of most of the "evidence" was so diminished that it could have easily been doctored.

It's amazing what lengths some people will go to to prove a point.

I've seen one link (can't seem to find it right now...) that showed photos with airliner sized landing gear (with a guy sitting on it) in front of the building among a pile of large pieces of torn up aluminium.

They act like a pressurised tube made out of pretty thin aluminium going about 400+ MPH into the side of a large reinforced concrete building will leave the plane intact enough to make it completely obvious. When the front of the nose slows down and stops just inside the building, the rest of the plane is still going at 400 MPH into the building.

Suppose I'd have to see those unreleased videos before I could take sides...

There are multiple sides to take? Wow, here I thought that all of these retarded conspiracy theories were proved wrong four years ago, before any of them were even hatched, when a FUCKING AIRLINER slammed into the Pentagon and killed hundreds of innocent people.

But maybe I just missed something.

Only four died in the Pentagon crash if I'm right...

The only thing I find strange is the fact that the wings should have come off the airplane, and yes, the grass was intact at the time.

I don't have the evidence, but I know for a fact that your numbers are waaay off.

Wait a minute! Come to think of it, I didn't see the big bomb casing from the atomic bombs dropped on Hiroshima and Nagasaki! o\_O OMGOMGOMGOMGOMGOMGOMGOMG THERE COULDN'T HAVE BEEN AN ATOMIC BOMB DROPPED THERE. LOOK, DEBRIS DEBRIS DEBRIS, NO BOMB CASING. THEREFORE THE US GOVERNMENT MUST HAVE EXTORTED ZEUS TO SHOOT LIGHTNING BOLTS AT THE JAPANESE IN EXCHANGE FOR NOT SHARING HIS HOME ADDRESS TO MASS MAILERS! CONSPIRARACARARACARARACY!!

It's a fucking explosion. It displaces things. Go figure you don't find an intact airplane sitting there slightly perturbed. Maybe a fucking SCRAPE here or there. But no it would definitely not be in little pieces. Explosions just don't do that!

Well, to be fair, there IS existing video footage of whatever hit the pentagon. I can't think of any real reason not to release it.
