Most all of us gamers are geeks sitting behind a comp..no big deal. They are not stopping you from joining servers. The owners of the servers running Renguard are stopping you because they choose to run Renguard to protect themselves and their clients from cheaters...basically YOU. They do have the right to ban your pristine ass from using their software and their server..live with it.

It a good thing that your banned from RG..this way you can protect yourself from the gay maps and gay fog. GG

My, where to start.

1. Learn proper English. Amazing how someone "from the netherlands" can grasp these simple concepts better than you.
2. "geeks sitting behind a comp" probably make more money than you ever will, so I wouldn't go around insulting them.

3. "What gives you the power to stop me from joining some servers" Easy answer. You allow them to stop you from joining servers. You got the program, didn't you?

4. CP1 is an optional download; so if you don't like it, DON'T DOWNLOAD IT. It's such a simple concept, yet you failed to realize it.

Holy run on sentences batman!

I never said you got Core Patch 1, I just said that if you don't like it, don't get it. Nowhere does that infer that you DID get it.

I never disagreed about your ability to join servers, all I said was that you allow them to stop you. No one says that you MUST run RenGuard to play the game. If you have a problem with it, get your clan to stop using it. Otherwise, don't complain.

Oh no! A bypass worked? My, this must be the most flawed program in the world! Kind of like every other security program ever made. Im sure even the person with the most basic of computer knowledge can tell you that no system is 100% effective, that's why there is this extensive process that people must go through called an UPGRADE.

Unfortunately, thats all I could decipher from your post.

Here's a hint, if no one cares that "It's the internet", then why are people getting after you for it?

I leave you with a quote to ponder.

A lack of intelligence is no excuse for blaming your lack of ability to spell, on the internet.

Reading Comprehension = 0.01%

What tec's tried to say:

He found a bypass for renguard, after that he tried to contact RG people to "fix" it, bypass that was already fixed for what they knew, but it wasn't. He doesnt cheat like RVMECH said

"The owners of the servers running Renguard are stopping you because they choose to run Renguard to protect themselves and their clients from cheaters...basically YOU."

Im not interested in quoting or anything, if you have a problem live with it.

Tecs: "You ban me from rg when i tell you about a bypass"

WHERE YOU COULD READ SOMETHING ABOUT "HI IM CHEATING" he was trying to help RG and ren community so if you dont know how to read (i know it was hard to understand but hey, in schools they teach you how to extract the most important of a phrase right???...) please just be

quiet.

Warranto, try to say something and not just type being tough, if you can help good, if you just wanna start a flame war....

Looks like some of you didnt read what RenX said.

RG 1.04 will fix or "guard" the bypass so i cant understand the reason why tecs is banned

"[15:44] Message from RenGuard: You have been banned by Crimson on 21.07.2005 02:45:37 for Tecstasy: You know damn well why.. Goodbye "

Its a RG ban so he cant join RG servers... USING RENGUARD, ANTI-CHEATING PROGRAM whats the point of ban some one trying to HELP to make ren funnier to play from the net itself. Stop using RG? that would be the wrong way to go...

Seg.

The fog does allow you to snipe, however it just increases the difficulty just enough to keep this game one of the hardest to snipe advanced players with. Halo is hard to snipe in, since you have to lead shots, but it still doesnt compete to much with the Renegade difficulty. Tect, you sound like your a little four year old that cheats in every video game he gets, because he isnt skilled enough to go through the game without doing so. I know because i used to do the same thing.

Also, i think im losing my internet connection for awhile. Dunno for sure.

I cheat to get to the end of the game, see what the ending is, and learn how to get through the levels. After that, i go through games without cheating, so i get the satifaction of beating a game fairly. Of course, in games like Halo, you cant cheat just by typing something in. I went through Halo in about 2 weeks, and beat it easilly. Ive been going through in Heroic to get ready for Legendary, and the extra ending.

And no, I never cheated in Renegade. Last time I cheated must have been in Duke Nukem, with those codes to help you; when I was 15. But that was single player. You can cheat on single player whatever you want in my opinion. It's just fooling yourself.

Really. I'm doing the honorable thing, for both myself and Tecs there, by not saying anything directed at him. Besides, he has enough people railing him.

Whats that supposed to mean?

Im guessing it means that, you sir, are an idiot.

My god, this guy irratates me.

One, you have no right flaming mac crimson or anyone from that crew who gave us this blessing to keep your lame ass kind offa our server. Were trying to have fun, we dont want to be killed by noobs with no skill.

Two. My god man, you REALLY need help with your english, like honestly, its called phonics, look into it. Coming in here and not using spell check, whut kinda person are you?

Three. You withheld info about bypass, so who knows, you could been the cheater, unless you have enough proof to clear your name, hats off to whoever banned him. These cheaters need to know that eventually, they WILL get caught.

Four. If you dont care about us and our opinions, why are you still reading and posting? do you think that mac or crimson are going to magically feel sorry for you and unban you? Cheaters are not takin lightly, never have been never will be.

Five. Hey, im not a geek i have a life. I play football have friends. But who are you to bash them any way? Do you have any idea how rich they can get? (Bill Gates ne one?) Im starting to think your proolly 7 years old, found a noob bypass, used it and now are whining about being banned. And by posting here, your making it our buisness to bash you and give OUR opinions aobut whut your saying. Warranto hit it on the button.

So do us all a favour, leave, never come back and stop the noob ways, cheating at EVERY game you get....sad...honestly, have you NO skill at all?

Sry guys, i had to get this offa my chest:)

Btw, lijitsu is a nice person who is very wise.
