So basically the guy was in a committed relationship for a long time, and in love with the girl, who dumped him for a reason unknown to us. His obsession was so bad he flew out to meet her, and got ownt when he saw she was with another guy. then he met another girl back home who was a tit and made out with his best friend. Then he said "let's change", and, influenced by an online community (rofl..), he became a "go out with the lads" kind of guy, fucking every chick he meets at parties and being the complete opposite of a relationship guy. Then he gives "shoutouts" at the end to the people who helped make him this way.

And he's supposed to have got his own back? Sounds more to me like he met a group of fucktards and let himself become one of them. All I want to know about this guy now is: why did the first chick dump him?

Agreed.

And why is Maiden on your "list of suck"?

BBecause my list of suck contains things which I think suck. I think Iron Maiden's songs sound way too similar to each other and their singer is almost as annoying as the simple plan singer, sorry, whiner.

I'm whining? I'm asking a question, explain how thats whining! If anybody is whining its you for putting them on your "list of suck", because you think the songs sound way to similar and the one of the singers voice (or both of the singers voices) annoys you, bitch.

Not to mention the fact that you even have a "list of suck" in your signature on at least one forum.

So, sir, your are the one whining. I'm not even whining within this post, well you know what... just for you:

"Take Iron Maiden off your list of suck! They kick so much ass, they don't belong in that little list of yours... so take it off your list or so fall off a cliff or something. "

I didn't mean you were whining I mean the simple plan vocalist can't sing for toffee, he's a whiney little bitch that would be beaten in a singing contest by a bunch of screaming cats.
