Wow. You are a fucktard aren't you? You think it is funny to make fun of a mental illness? Even if it is faked... And I guarantee that everyone on this site has heard of it 1000 time before from morons just like you.

Tourettes is not really something we should mock. Yes we may find it amazingly hilarious the first few times but you will soon find that it is a condition that they have no control over. I used to know a girl that had tourettes, she had the kind where she allways swore and cursed. The first time i heard it i was confused as to why she was being abusive towards me but soon found her to be quite nice and understood her condition.

I don't find this site the least entertaining, and I believe that you shouldn't mock this disease.

Im sure its fake because they need his permission to put him on the web dont they?
I am not mocking the condition either i just think its funny when a guy wakes up to see a giant m&m by his bedside and start telling people about a porcupines balls.

Umm, what's so fun about balls? I know it's fake, you can see that clearly.
