I though that the nuclear missles were tall and pretty narrow? Check out the nuke from RA II and try to make something similar, I think that would look better then that big round thing... Just a suggestion

Just a suggestion I know what the nuke looks like but, I am going to write my name one this one and fix up the texture. Anyways the RA2 nuke is going to be to high on polygons and to big to fit in the Silo. [ November 11, 2002, 19:44: Message edited by: CyborgDC ]

Very nice. One thing though, i think the top of the nuke should be higher in the silo, so it looks longer. Just my opinion.

Let me make this clear if I make the nuke it will be to big to fit in the silo, but if I make it small enough to fit in the silo, the nuke will be to small.To show yall, I am going to make the nuke.
