Ok, I have decided because i put so much heart into this map, and because it is pretty **** good I cant just not release it. So I am going to fix up the bad textures and put in less trees. And because I cant get it to feel exactly like Vietnam like I wanted, I will also rename it more appropriately. It will now be known as C&C_DM_Tropic.If the water flashing problem is resolved easily then expect this map in 1-2 days. I beleive you will find it MMN worthy.
