Because someone graffitied my forums site, the Black Hand Snipers Clan is no longer recruiting at this time. We will get another site up soon!!!

Its spelled "Nod." If your going to be a Clan who pledges themselves to a single side, atleast spell it properly. Whats more, it should read: "We pledge ourselves to the Brotherhood of Nod, but more specifically, to the Black Hand."

Furthermore, your signature(which I guess serves as your clan's logo) is very weak. The colors clash, and not in a good, Christmas sort of way. It's also JPEG dithered when dithering wasn't necessary. In other words, it's ugly. Who would want to join a clan with such an ugly logo?

Additionally, why a "sniper" clan? Anyone can be a sniper in Renegade. Grab a Ramjet and keep your ping low, and there you are. Instant god-like sniper.

No. No Ramjet. You havent seen the huge ass arguement were having in General Chat about it, have you? Just get yourself some training, and a 500 Sniper, and youll be damn good.

Edit: Yes, your signature picture sucks also. If you want, im can make a better one. Its gonna be MS Paint, but i can make some pretty good MS Paint pictures.

That was kind of my point. It's like the AWP(?) in Counter-Strike. No real aim required. Just point and fire and whatever's on the other end takes maximum damage.(As you can tell, it doesn't amuse me to take 114 damage from a shot to the foot. Admittedly, 479 damage from a Head Shot does intimidate me quite a bit.) Tier 1 Infantry doesn't stand a chance.

Why does this garbage keep resurfacing... For a clan, your website isn't important, your logo isn't important, your forums aren't important, your witty name isn't important.... all that matters is playing often (clan games) and playing fairly...

Try going to Google, it helps to remove the sting by going to familiar surroundings.

I went when it hurt my eyes to look at a website that looked like it was designed by an 8 year old.

I would rather join a clan of intelligent, nice people than people who own at the game and have the character of turd.

"Sniper Clans" in Renegade are indeed the lowest of the low-lives ruining this game for the rest of us. You people make all servers miserable Sniper-fests where it's entirely "Kill or be killed," as opposed to "Return the enemy's flag!" or "Destroy that structure!". I'm willing to wager that none of you losers have any clue as to how to do jack-else when it comes to Renegade. In fact, I'd even go as far as to say that you people have never even played the freaking Campaign missions!

You people sicken me.

(. . .as I'm sure I must sicken you with posts like this.)

Snipers are a part of the game. They don't ruin it. Just because you lack the skills to shoot someone in the head does not mean snipers are bad at the game. If you don't like servers with snipers in them then do not play in them. Its just that easy.

The fact is, you cannot win certain maps without snipers. In City flying, how will you dismantle a pack of orcas firing at the Airstrip? Also, you may be surprised of what skills that some snipers have in AOW. Being a good sniper means being able to time your shot to hit where the enemy will be, not where he is. Much like tank versus tank battles.

firing at the Airstrip? Laser Chaingunners. Simple as that. They can do it faster and more efficently than Black Hand Snipers and Sakura units. Same goes for Walls_Flying. Snipers may have distance, but if you get within range of a Tiberium Flechette Gun/Laser Chaingun, you're as good as grounded.

What version of renegade are you playing? It bears no relation whatsoever to the copy I've got.

What version of renegade are you playing? It bears no relation whatsoever to the copy I've got. You must have an odd patch, because the Laser Chain-gunners can do a good amount of damage to an Orca. Not enough to kill it quickly, but still. Besides, any good Orca pilot knows how to avoid a Laser Chain-gunner. It's not so easy to do so to a Sniper. The Tiberian Flechette Gun doesn't do a whole lot to vehicles, other than the Humvee and Buggy. And even then, it does very little.

Ummm, who are YOU to make a comment on that? You don't even play clan games. I'm not saying I don't agree with you, but I do to a certian point. Sniper clans are mostly full of former AOW players that got fed up with being owned time and time again. Instead of TRYING to learn AOW games, they took the n00b way out and went for less complicated Renegade gameplay. You should get into the ClanWar scence Collins, someone with your intelligence could actually become a sizable opponent with enough practice. But if you wanna kick it here with these... "Renegade players" then that's your choice. Just in case,

check it out, make an account and look for a clan that's willing to train you in the ways of Clan Matches, if you'd like, -HCMF- is recruiting, we'd be happy to take on some noobies and train them into AOW machines
