Glad to see you still have nothing of any use to anyone when you post.

I guess people will like playing 1 player lan matches by themselves because no one is going to host this POS on a server

The renalert fds crashes so much its downright stupid.

You in the middle ages? They know how to fix it, and n00bstories (server 5) has that fix.

Yeah, I guess I have the fix... all I know is my RenAlert FDS hasn't crashed in my recollection in several months.

Crimson, most of your lies are not true. We all know that not one game has been played of Renegade Alert in over a year! *hides server listing* The 24 player games that happen every weekend or so are lies. The American infidels have not entered Baghdad!

Thanks again for always being there for us, Crimmy.
