Heres a better idea.

Step #1. Buy a Sniper/Ramjet/Rail Gun/PIC.

Step #2. Sneak up/run up to/zoom in to an enemy.

Step #3. Aim.

Step #4. Fire.

Step #5. Listen to "boink" sound, or whatever sound you have set as the kill alert sound.

Buying a Stealth Tank and driving up behind someone works quite well, too. Or any vehicle, really.

Or you could just download a one-hit hack and get yourself banned from the RenGuard network.
:D

You seem to be the king of noobs. Newbs dont need help, they need experience. When theyve played long enough, they will get their own fighting style, so just let them do it. Noobs, on the other hand, need to die.

I find the best strategy when trying to kill infantry with a sniper/pic type. Is to aim for the head! [/obvious]

I got an even BETTER idea for him.

Step #1. Kill your mother

Step #2. Kill your father

Step #3. Kill your sister

Step #4. Kill your brother

Step #5. Kill yourself

So that this may never, ever, EVER happen again.
