Ah yes, first post from your laptop is one where you admit to illegal activities.

Good job there.

If brains were dynamite, you wouldn't have enough to blow the kneecap off a flea. Wouldn't clues have more room to fit in your head if you got rid of some of the bullshit in there? A long period of non-posting would be most welcome on your part. How true is Stanislaw J. Lec's famous remark: "Every now and then you meet someone whose ignorance is encyclopedic."

Calling you dull is a gross underestimation of just how tedious you are. You have the personality of a damp sponge and the appeal of a moldy sweat sock. I'd get more pleasure from running my nostrils down a cactus, than reading another contribution from you.

When god was handing out personalities, you must have been holding the door. You're so boring, even a boomerang wouldn't come back to you. You are like watching Amputee Field Hockey: pathetic, and very quickly disgusting. Maybe you wouldn't read like such a pathetic loser if you weren't intellectually slower than a herd of turtles stampeding through a vat of chunky peanut butter; if you weren't so fat that when you stand on the weighing scale, it reads: "Sorry, we don't weigh livestock.", or if your face wasn't so ugly that visitors to the Ugly Palace pay money NOT to see you. Who am I kidding? You would.

In conclusion, sit down and shut up before trip over your own tongue and hurt yourself.

nopic does NOT do this on purpose, so stop telling him to go jump in front of a bus or some shit like that

if you dont like him, put him on your ignore list

everyone can change, and that includes nopic.

on the other hand, there is a certain forum member who will remain unnamed, that purposely trys to piss people off, whenever i say things about him i just get told to put him on my ignore list so y dont you just put nopic on YOUR ignore list?

At age 12, I remember being a complete retard online.

7 years later, I can still be a retard. But hey, at least I know when to stop. Also, I've learned to do a lot more things now than I could then simply by perseverance. I hope nopic evolves in a similar fashion or else there is indeed no hope for him - he will commit suicide no later than age 17 when he realizes he has no friends, no education, and can't do anything he puts his mind to. Wait, scratch that. I hope I'm wrong. He will live out the rest of his life in a mental institution for high levels of retardation, where we can all come visit and laugh at him.
