my m8 cant join any server on renegade...hes turned off his firewall...hes installed the patch...hes downloaded RG with Cp1...and he cant join any server...he can get onto WOL and see the server listings and get into the chat...but not into servers...it keeps timing him out...does anyone know how to fix this?

thxs.

It will auto detect your internet speed.

Sometimes its UDP, Make sure all are open and passable.
the exact ones needed, i have no idea.
