I couldn't find C&C_Tiberiumredux anywhere. Do you have a link for this map?

Nope. It's tiberiumredux. I'm sure. At least the server is saying this. Also it's name can be found if you search with google. There are some links but they only show the name of it.

Why do you need it, what server?

That reminds me, I need to download Map Pack 7 & 8 for the Unrules servers...

My bad, just 7 and 7B. Or 7a. Either way, there are about 9 Map Packs now. Including 6B. Or 6C. I can't remember.

I don't remember the server, but I remember that this map is in rotation somewhere.

I thought this topic was supposed to be about the missing map, right?
