Are you using NR or BR or anyother bots with it?

If you are you'll have to put the sniping scripts in the Renegade FDS folder

In snipemod.ini there is an option for putting gamelog for infantry on or off. Put it on and it'll work

hmm, i thought the infantry logging would solve the problem but it didn't: I also keep having the trouble. Might install a different snipe mod later...

I had this exact same problem. There are more stuff that did not work with the sniper mods out there.

Just make your own sniper mod, just like I did.

Just DL the snipermod created by Dudley at www.game-maps.net -it's fairly better than the old SSM which an be DLed at Nightregulator.co.uk.

Use the NR 0.20 for this or just BR1.41 (in case of running this recommended SSM on ssaow1.34).

Or use ssaow 1.5 with it's built-in Snipermode.

WHere is the sense of forcing the players on a SSM? Do you want to set up a sniper-coop?
