I tried this installer [renegade-mod-renalert-en-0991.exe] and
i installed a other Renalert Version and it didnt works! I had Renalert but i forgot the website.
Where can i get a Renalert version with more than 1 map and aircrafts?

 http://www.multiplayermaps.net/index.php?action=file&id= 359

^ Full version for .993

 http://www.multiplayermaps.net/index.php?action=file&id= 497
http://users.wpi.edu/~jbrodeur/RenAlert9932Patch.exe

^ Patch version .993 to .9932

These links work. I will update the link page later once I talk to Gamespy.
