I know nobody will believe me if I say it was someone other,
so I don't try this, also when this is true.
But I like to know: Are 30\$ not a little bit to much money?
The game cost 5€ (I'm a German) so the banned people will bye a new game (Does this work?)

Well, what is banned (IP, MAC, SERIAL,...)?
Will you say me?

Sorry for the bad English

Mac in the sticky topicYou will need to donate \$30 to get unbanned. There are no exceptions.
Stop trying to say it was your brother/cat/dog/neighbor. You are responsible for what happens with
your serial number and with your renegade installation.

The last ten times I've seen him tell someone what it costs, it's always been \$20.

I frickan knew it was gonna be Mac that said it. God damned Precognition.

It bans on serial, so either get just a serial from a friend, or buy a new game which will have a new serial.

Just buying a new game wont work.

I don't want to trick bhs but I wont pay 20\$ for things i didn't do.

You actually kinda admitted you did it, otherwise you wouldn't just give 20 \$ away.

No, just buying new serial does NOT work. It uses a more sophisticated method for banning, don't know exactly what it does though.

No, it does not.

Crimson has stated before that they dont just ban by serial. It also makes no sense to ban by serial only as people would just go out and buy a new game, because it costs so little nowadays.

Exactly, in canada its 9.99 for a new game, so yes, i think 20 is a resonable price to keep these little shits off our servers.

don't tell people that, it'd be funnier if they went and bought a new game, got home and found out they wasted their money.

What mac ment was that if you just go to the store and buy the new copy wont get you unbanned BUT if you buy a super secret hacked copy from BHS for \$69.99 it might work

Funny people think paying a \$20 fine is "too much" when they are caught trying to bypass a system that we pay over \$500 per month (for the servers) out of our own pockets in order to have cheat-free gaming for everyone.

Maybe i shouldnt say this after Crimson was so kind enough to unban me from RG, but when i wanted to play Ren, i found i could use one of my other PC's.

Oh, by the way, for any of you that do not know, i am Xeon... Strange how all of you treat me differently when i use a different name. Oh well, i think im gonna leave the RG foums for good now, and maybe Renegade all together. So i may see you guys later in the future, but for now, bye.
