I have three question if u can answer them please do so.

1. How to install a plugin in the NR 2.0?
2. How to use msn, it has an option in it?
3. How to make commands in it?

THX

P.S. Please answer if u know anything.

Quote:1. How to install a plugin in the NR 2.0?

make sure u have NR 2.0c, and then open Source.zip in the NR directory, and edit & compile NRplugin.dll!

Quote:2. How to use msn, it has an option in it?

unfinished, does not work

Quote:3. How to make commands in it?

the current version of 2.0 is basically what ive done so far, i havnt done NRcommands.dll yet

im pretty sure it SHOULD be possible to add commands in some way or other via NRplugin.dll though?

can u code in VB?

the source code to NRplugin.dll is provided within Source.zip

you edit it!

and 2.0c is the version number you know at the top in the window bar?
