Hey,

maybe you can just post your nickname and ip so I could just ban you straight away? It will avoid us both being bothered too much... once a cheater, always a cheater...

Dumb fuck alert...

Hey crimson any chance of taking his i.p and giving it to server owners to ban him....

I'm tempted to give him the link to Final Ren with a trojan horse in it...that would server his computer and his tiny brain right!

Yeah, it literally would "Server" his computer. Maybe then you could host kiddie porn on it, trace his location, and make a quick tipoff to the FBI. All joking here of course
